HackSpark-1.0 Topic List | Theme: AI

1. AI for Energy-Efficient Manufacturing
2. AI-Driven EV Battery Management Systems
3. AI for Cybersecurity
4. AI-Powered Traffic Flow Optimization
5. AI for Code Optimization
6. Smart Chatbots for E-Governance
7. AI for IoT-Enabled Smart Homes
8. AI-Powered Embedded Systems for Agriculture
9. AI for Wearable Health Monitoring Devices
10. AI for Natural Language Processing in Regional Languages
11. AI for Climate Change Prediction
12. AI-Generated Content Moderation
13. AI for Disaster Management
14. AI-Driven Threat Intelligence Platform
15. AI-Powered Honeypots for Cyberattack Detection
16. Real-Time AI-Based Intrusion Detection System (IDS)
17. AI for Fraudulent Transaction Detection in Real-Time
18. Scam Website Detection Using AI
19. AI for Voice Authentication in Financial Transactions
20. AI for Smart Road and Traffic Management
21. AI for Sustainable Urban Infrastructure Planning
22. AI for Predictive Maintenance of Civil Infrastructure
23. AI for Disaster-Resilient Infrastructure Design
24. AI for Efficient Water Resource Management
25. AI for Construction Waste Management
